

Daniel—6 years old

Closer to the Light, Melvin Morse, MD

Daniel was struck by a car while riding his bicycle and received a severe head trauma. He was comatose for two weeks.

“I was standing there watching the doctors load me into the ambulance, when I saw that I was outside my body. My mom was crying and everyone was in a hurry. “

"When I got to the hospital, I watched the doctors put tubes in me. I looked yucky because I was bloody and bruised. “

“I then went down a tunnel that was dark. At the end of the tunnel was a bright light. I wasn't sad and I wasn't happy, but I did want to get to the Light. When I got to it, I met three men. One was very tall and the other two were short. Behind them was a rainbow bridge that stretched across the sky. They seemed nice, but I was afraid of them anyway. “

"All of a sudden I was back in my body. I looked down at my feet, and the men were there. Then they disappeared, and I was completely back. "
